Would you or your family benefit from a safer walking route to school?			No	Yes	No	No	No	Yes	No	No	Yes
Do you believe the new footpath would encourage more walking and active travel?			Not sure	Yes	Not sure	Not sure	Yes	Yes	Not sure	No	Yes
Do you think LED lighting should be installed along the proposed footpath?			Maybe	Yes	Yes	Yes	Yes	Yes	Maybe	Yes	Yes
What benefits do you think LED lighting would provide?			Improved safety at night , increased access for all users	Improved safety at night,Increased accessibility for all users,Reduced risk of accidents,Encouragement of more outdoor activity	Improved safety at night, Reduced risk of accidents	Improved safety at night	Improved safety at night	Improved safety at night,Increased accessibility for all users,Reduced risk of accidents,Encouragement of more outdoor activity	Encouragment of more outdoor activity	Improved safety at night,Increased accessibility for all users,Reduced risk of accidents,Encouragement of more outdoor activity	Improved safety at night,Increased accessibility for all users,Reduced risk of accidents
Do you have any concerns regarding the installation of LED lighting?			No	No	NO	No	No concerns, safety is paramount	No	No	No	No
Do you have any other thoughts, comments or suggestions regarding this project?				I believe people will feel much safer with LED lighting near the park and more children would be encouraged to use the park for exercise/activities/walking. An additional foot path would possibly benefit those with pushchairs as they are often seen struggling during the winter months to push a pushchair over wet grass/soil. It might encourage people to walk more. It's a great idea and we hope it is successful				This would prove a great improvement for all and save people walking through wet and muddy grass for 9 months of the year.		I think this path should have been provided years ago, a clean path access is essentail	We believe it is a very good idea to get more people walking in a safe environment.
