A Frame Picnic Table HEAVY DUTY

L1650mm x W1300mm x H750mm

This traditional A Frame Picnic Table is suited to any outdoor area and is particularly popular with the hospitality sector, schools, colleges and wildlife centres. Our Smartawood products are built to be sustainable and sturdy as well as practical and sleek. We also offer a lighter weight version of this picnic table

<https://plastecowood.com/product/smartawood-picnic-table/>, more suited to residential settings.

More hygienic than timber they can be jet washed and cleaned with detergents without being damaged. The A Frame is compact but long-lasting and durable, made from 100% recycled plastic. Anywhere that there is a requirement for hygienic seating-for-eating, this value for money option will be an attractive asset.

✓ 10 Year No Quibble Component Guarantee: 100% weather resistant, maintenance free, no splintering, cracking or splitting; ideal for various locations. No paints or preservatives required (120 year life expectancy) – reduce whole life expenditure, minimise cost, and disruption caused by maintenance and replacement.

✓ 100% Recycled Waste Plastic: unique, world-first technology, repurposing soft waste plastic, diverting waste from landfill and incineration which provides huge environmental benefits, moving towards net zero and enhancing your sustainability credentials.
