(Scroll down for English)

Prynhawn Da,

Efallai eich bod yn cofio ym Medi llynedd fe wnaethom gynnal ymgynghoriad statudol i gyflwyno ein cynigion ar gyfer Solar Bodelwyddan (Storio Solar ac Ynni Bodelwyddan gynt). Ers hynny, rydym wedi bod yn adolygu ein cynlluniau yn dilyn adborth gan amrediad o randdeiliaid ac rydym yn cynllunio yn awr i gyflwyno ein cais ym Mai 2026.

Ers i ni gysylltu â chi ddiwethaf, mae elfen storio batri'r prosiect wedi cael ei thynnu o'n cais cynllunio. Yn ogystal, mae'r is-orsaf wedi'i hadleoli i'r safle solar ac mae gostyngiad o 1m yn uchder y paneli solar (a gyflawnwyd trwy newid math y panel o banel olrhain i banel sefydlog).

Rydym wedi atodi ffeithlun sy'n cyflwyno'r newidiadau sy'n cael eu gwneud i gynllun y safle solar. Mae rhagor o wybodaeth ar gael ar ein gwefan bodelwyddan-solar.co.uk.

Er nad ydym yn ymgynghori ar y newidiadau i'r cais cynllunio, cysylltwch drwy e-bostio contact@bodelwyddansolar.co.uk neu drwy ffonio **01685 701254** os oes gennych unrhyw gwestiynau. Bydd hyn yn eich rhoi mewn cysylltiad â Grasshopper Communications sy'n rheoli cyfathrebiadau ar ran Island Green Power.

Yn gywir,

Nick Bowen

Rheolwr y Prosiect

Island Green Power

Good afternoon,

You may remember that in September of last year we held a statutory consultation to present our proposals for Bodelwyddan Solar (previously Bodelwyddan Solar and Energy Storage). Since then, we have been reviewing our plans following feedback from a range of stakeholders and are now planning to submit our application in May 2026.

Since we last contacted you, the battery storage component of the project has been removed from our planning application. In addition, the substation is re-located to the solar site and there is a reduction in the height of the solar panels by 1m (achieved by a change in panel type from tracker to fixed).

We have attached an infographic that presents the changes that are being made to the solar site layout. More information can be found on our website bodelwyddan-solar.co.uk.

Whilst we are not consulting on the changes to the planning application, please get in touch by emailing contact@bodelwyddansolar.co.uk or by calling **01685 701254** if you have any questions. This will put you in touch with Grasshopper Communications who are managing communications on behalf of Island Green Power.

Yours sincerely,

Nick Bowen

Project Manager

Island Green Power
