QUOTATION

Supply and plant one 4m high Nordmann Fir root-balled tree
together with 70 litres tree planting and mulching compost mixed
with the backfill and 1 kg of fertiliser to be scattered on the
ground around the planted tree.

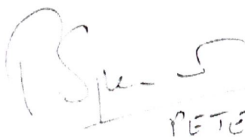

Take away dead tree and any surplus soil for off-site disposal.

£955

(nine hundred and fifty five pounds)

plus V.A.T. at standard rate

N.B. Tree should be kept watered during times of drought

PETER SPENCER
