Subject: RE: Cost for

Hi Dylan,

IT had not provided me with the complete picture, their surveys for phase 2 lampposts were not complete as they were waiting for a 3rd party to return more information. These are still to be returned in full to us. My initial report was based on partial information, although I was not aware it was in fact partial information, and coverage as it stands. I can only apologise for sending the report in error, a complete mistake on my part, due in part to a communication problem between IT and the surveying party and myself. Please can you reiterate this to the councillors and relay my extreme apologies for having caused confusion. The first update is simply not accurate, once again sorry for my error.

Thanks,
Katie

Hi Katie

Just to clarify, when you say you were not aware of new information.

Please can you kindly clarify/confirm what new information you are referring to, as a number of my councillors are questioning why the two CCBC Updates are so different.

Kind Regards

Dylan Thomas

Subject: RE: Cost for

Hi Dylan,

There is no cost for the collation and regular dissemination of reports, we will be undertaking this work as part of our business as usual as we do in other SMART town areas. Regular reporting will need to be agreed in terms of frequency, I would suggest a monthly reporting cycle, any ad hoc reports will be available upon request. The costs for data collection are included in the Cisco costs. The lifetime of the project is 7 years, for this period all costs have been included in the figures already provided. We would expect to begin discussions with you about the ongoing scheme during year 6 with a view to sourcing further funding where possible to continue the provision or improve on provision, dependent upon the situation at that future date. This would be done in good time to plan for any future developments after year 7 ends, so as not to disrupt services.

It should be noted that the first email sent is not relevant, it was sent in error as I was unaware of new information. As such it should only be the update which is reviewed, the scheme is progressing as planned and approved. We are investigating viable lampposts for phase 2 installations, once these have been identified we will come back to you with further information.

Does this answer the questions below? Or can I help with anything else?

Thanks,
Katie

Subject: Cost for

Good Morning Katie

Please can you kindly provide information on and potential set up/ongoing costs for the Smart Towns data collection and reports.

Can also you kindly confirm/clarify the following:-

a/ Will Conwy CBC be paying for the ongoing data collections/reports, and will they provide regular copies to TKBTC.

Or

b/ Is the cost for the first 7 years for the data collection and reports included in the scheme?

Or

c/ Will TKBTC need to consider/factor this in as an ongoing cost for the Conwy CC scheme?

I look forward to your earliest contact in this matter, as a number of my councillors have requested this information, ready for the full town council meeting on Monday evening (2/12/2024).

Kind Regards

Dylan Thomas
